ETF Community of Innovative Educators

Mission

The **ETF Community of Innovative Educators** fosters the promotion, discussion and adoption of **innovative teaching and learning practices** among teachers, trainers and other education professionals, with the mission to empower educators to help each other innovate. The community is part of the ETF's **Creating New Learning** initiative.

For whom?

The Community is **open** to educators and education practitioners from all over the world with a special focus on the EU neighborhood. Participation in the different activities of the community is recognised through open badges, sharable on social media.

Activities

The Community organises **a range of activities in different languages** – English, Russian, Arabic, and others – to discuss burning issues related to education innovation such as digitalisation, assessment, gamification, personalised learning, new learning environments and key skills development.

Webinars

Blog posts & newsletters

Awards and competitions

Join & Follow

Join the Community and:

- stay updated on next activities
