SUMMARY

This one-day national workshop provides an opportunity to reflect on the findings of new research carried out by the ETF in partnership with the Ministry of Education, Science and Technological Development, the Institute for Educational Improvement in Serbia. This research invited Serbian teachers to share their views about their work. The research draws upon the views of 1769 VET teachers and 78 school directors at 110 VET schools across Serbia, interviews with 8 stakeholders and a literature review. The research reviews the state of policy development and provision with respect to CPD for VET teachers in Serbia. The research offers insight into modes of teaching, school leadership, links with business and workforce satisfaction.

The report provides conclusions and recommendations to support policy implementation. The workshop will critically evaluate recommendations and build agreement on ways forward.

The workshop will provide an opportunity to help shape the ongoing action to support the development of CPD for VET teachers and trainers in Serbia over the next two years.

The workshop will be of interest to policy makers and practitioners (from both the public and private sector) concerned about vocational teachers and teaching in Serbia.

The workshop will be conducted in both Serbian and English.
