The French National Qualifications Framework

The French Register of Qualifications and website

The National Commission for professional Certifications/Qualifications

The plenary committee

- Meets 4 times/year to issue a final registration proposal; social dialogue and strategic thinking

The specialized committee

- Meets monthly to examine registration requests and to emit registration proposals

The national secretariat

- Handles registration requests submitted at national/interregional level
- Provides technical and administrative support services

The network of correspondants

- Process regional registration requests

The French NQF
The general principle

The act of certifying

- assessing the learning outcomes of an individual with respect to a reference/standard:
  - *the nature of **learning outcomes** to assess (**standard**)*
  - *the **assessment methods** and **criteria***
  - *the **agents/players** who are competent to perform the assessment*

Certifiers/awarding bodies

- *the **state** (the ministries)*
- *the **social partners** via professional branches (occupational sectors)*
- *the **public institutions** (in their own name)*
- *the **private institutions** (in their own name)*
- ***consular establishments** (chambers)*
- *certifying institutions that have received approval from a ministry*

The French NQF

- An individual is considered "qualified" when he/she is able to

    - **combine** and successfully **use/apply** the three dimensions of **competences** (knowledge, know-how and abilities)

    - in **professional activities** described in a "**standard**" (référentiel)

    - in a large **professional contexts**

    - with a level of **responsibility** and **autonomy** previously defined.

The National Register for professional Qualifications

The registration concerns only the certification itself: learning outcomes and not training courses

The purpose of the RNCP:

- To provide individuals and companies with a permanently **updated information on vocational qualifications**

- To contribute to facilitating **access to employment**, human resources management and **professional mobility**

- To offer a **classification** of vocational qualifications **by field of activity** and **by level** (except the qualification certificates)

- To register, under the so-called **"by law" registration**, the vocational qualifications issued following prior consultation between the State and the social partners

- To register, under the so-called **"on request" procedure**, all other types of vocational qualifications, following a formal advice by the CNCP

Річний звіт 2016 ПАГ

З моменту свого створення відповідно до Закону від 17 січня 2002, місії ПАГ були укріплені два рази по волі законодавчого органу, даючи Комісію велику роль у професійній підготовці нашої системи країни. Через відносини з різними джерелами фінансування професійної підготовки без розрізняючи шляху до професійної сертифікації (початкове навчання, безперервна освіта, навчання, VAE), то RNCP обклали ВСЕ більш високі вимоги ДО якості для різних учасників пропонують навчання / сертифікації.

У меншій мірі , з точки зору фінансування запуску, інвентаризації з 2015 року знайшов своє місце і побудувати базові показники , які приносять знову зосередитися на логічних навичок і придбання їх контролю.

▸ 2016 років звіт (В форматі PDF, 543,75 КБ) 📄

How was it established?

- The register was created by law
- The website was created under the responsibility of the ministry in charge of Employment and VET
- -> A single technical responsibility
- -> The involvement of stakeholders for the evolution

The National Register for professional Qualifications

The certifications registered in the RNCP:

- **qualification indicators** on the labour market
- recognised **throughout France**
- described in terms of **learning outcomes**
- classified by a **5 levels grid** (I, II, III, IV, V) - linked with the EFQ
  - except the qualification certificates
- classified by **activity domains** (FR "code NSF") - linked with ISCO
- include the specific **code of the Labour Agency** (FR "code ROME")
- can be awarded after:
  - initial learning
  - continuing learning
  - through the FR **"VAE" procedure** (validation of formal and informal learning outcomes - professional and personal experience)
- **two types of registration**: "on demand" or "by law"

The National Register for Professional Qualifications
Types of certifications registered in the RNCP

Certifications registered in the RNCP :

- qualifications vocationally oriented - a clear direct professional aim
- operational on the labour market
- regulated profession are registered

Three types of certifications registered in the RNCP:

1. qualifications

- elaborated by the **ministries** in consultation with the social partners (CPC) - including all the Higher education degrees
- delivered by public authorities "**in behalf of the State**"
- a decree/order is published
- **automatically registered ("by law")** in the RNCP

The National Register for professional Qualifications
Types of certifications registered in the RNCP

First kind of qualifications

-> delivered by training organisations (**public or private**), Chambers of commerce, industry and trade and the Ministries that do not have an "Industrial advisory committee" (CPC) – e.g. Ministry of defence, Ministry of the Interior; universities

- delivered **under their own responsibility**

- examined and subjected to a proposition of registration by the CNCP

- a decision is made by the Minister in charge of VET and employment

- a decree/order is published – *Journal Officiel*

- **registration "on request"** in the RNCP

The National Register for professional Qualifications
Types of certifications registered in the RNCP

3. Vocational qualification certificates

- elaborated by the economic sectors under the responsibility of **social partners**

- examined and subjected to a proposition of registration by the CNCP

- the Minister in charge of VET and employment is bound to abide by this proposition

- **registration "on request"** into the RNCP

The National Register for professional Qualifications
Qualifications registered "by law"

- Vocational qualifications
  - awarded by the State
  - created after advice from advisory bodies
  - automatically registered into the RNCP
- Ministries: Education, Agriculture, Employment, Social action, Youth and sports – conceived by the *Industrial Advisory Committee* (FR "CPC")
- Ministry of Health - conceived by the *Higher Council for the Paramedical Professions*
- HE: the State authorizes autonomous institutions to deliver diplomas + retains a quality assurance role

The National Register for professional Qualifications
Qualifications registered "by law"

The procedure

- An official text already exists

- The certifier/ministry has access online to create/edit the information but not to publish it

- Procedures of control

- The role of the CNCP: all the « rights » on a file and only the CNCP can publish on the website

  – the reasons: Very often what is proposed is in terms of training objectives , and a mix between activities and competences There must be a coherence of the repertoire in terms of writing in terms of leaning outcomes

The National Register for professional Qualifications
Qualifications registered "by law"

The procedure

- A constant dialogue between the CNCP and the referents inputting the data, and /or the ones who verify it

- The dialog with the Labor agency/the labor market is encouraged (not compulsory but highly recommended)

The National Register for Vocational Qualifications
Qualifications registered "on request"

The procedure

The **criteria of registration** in the RNCP are determined by **law articles** included in the *Education code* defined by **decree**

- Filling a **specific registration file** – available online – following the compulsory registration criteria
- Sending the file to a **seizine authority** (the CNCP, a ministry office, a region prefect or to a "Parity national commission for employment" for the vocational certificates)
- For one of two types of initial administrative registration/reception by CNCP
    - **national registration** (national, international, interregional level)
    - **regional registration** (regional implanted centres)

The National Register for professional Qualifications
6-step Registration Process

6. Publication on the CNCP website - the summary file

5. Publication of the legal text - *Official Journal* – **not part of the CNCP system**

4. Minister in charge of VET & employment – official decision of registration

3. The **plenary committee** – vote, final CNCP registration proposal

2. The **specialized committee** – analysis, vote, registration proposal

1. The **national secretariat** – analysis, advice, support

1. The **network of correspondents** – analysis, advice, support

0. **Reception** of registration demands and **administrative registration**

The National Register for professional Qualifications
Qualifications registered "on request"

The criteria for registration - compulsory

Defined **professional target** and identified **professional needs** on the labour market linked with the qualification (**opportunity study**)

Professional integration for the certification holders (for three classes/years) and the relevance of the **recruitment level** as indicated in the demand (5 levels)

Description of the **standard of certification** – the professional target is privileged - the certification is based on **learning outcomes**

Validation of prior learning (VAE) - set up as a means of access to obtaining the certification – the certification is awarded by VAE on request

The National Register for professional Qualifications
Classification by level

- The certifications are classified by:
  - the level of **autonomy** and **responsibility** regarding a profession
  - not by the length of studies

- Work in progress for **establishing a new classification** consistent with the EQF levels

EQF levels	French 1969 classification
8	I - PhD degree grade
7	I - Master's degree
6	II - Bachelor's degree
5	III - (~ Higher technician)
4	IV - (~ Technician)
3	V - (~ Skilled worker)
2	Not applicable
1	Not applicable

The National Register for professional Qualifications
Classification by field of activity

The classification by **learning fields**(FR *Nomenclature NSF*) correspondence established with the **fields** of the last ISCED version

- used as a **classification by field of activity**
- linked with professions and socio-professional categories:
  - disciplinary fields
  - technical and vocational fields of production
  - technical and vocational fields of services
  - personal development fields

- A direct correspondence with the *International standard classification of occupations* (ISCO)

The National Register for professional Qualifications

Type of registration in the RNCP:

- **initial registration**
- **renewal** of the registration

- The CNCP type of decision/proposition of registration:
  - **favorable** for a duration of 1 to 5 years maximum – renewable
  - **unfavorable**
  - **report** of the examination of the certification
  - **adjourned** - an expertise in demanded to verify that one of the 4 criteria is met

- **An integrated system**

  – for the **general public**: information, resources and a search engine

  – for all the **stakeholders/certifiers**: a personal space for online registration
    - by law and on request
    - for initial an continuing learning
    - for all types of diplomas and certificates

  – for **the Commission members and personnel**: a collaborative online workspace

  – For the team (accreditation process: an integrated sytem)

The National Register for professional Qualifications

- For the two types of registration:
    - *by law*
    - *on request*

On the CNCP website**:**
- Specific **descriptive summary** for the certification
- **The certificate supplement – Europass format**
    - acquired competencies
    - professional activities covered
    - level
    - means of access

The National Register for professional Qualifications

Online database search by several criteria:

- Name of the qualification
- Name of the institution
- Level
- Type of diploma
- Key words etc.

A new, more user friendly website expected end 2017

The links

- Deep link betwwen each qualification and a « code ROME file » (register of the French national Labour Agency)

- Depending on the fiches, deep link with the portal of universities

- Link with the portal of validation of « VAE »

- Links with a central organization in charge of funding for LLL

- Links with LOQ in the future version

The issues

- - Who are really the end users ? (links or conception of the initial website)

- In France issues linked to the fact that the RNCP bears the NQF (for example bachelor degree: from a description niversity by university to the description of the common learning outcomes of a bachelor degree, for instance in law)

Résumé du référentiel d'emploi ou éléments de compétence acquis

Au carrefour du rationnel et du sensible, l'architecte d'intérieur pense les espaces, leur confère l'intention et le sens d'où naîtront identité, cohérence et lisibilité. Intervenant le plus souvent à l'intérieur du bâti, il/elle sait tirer parti de cette contrainte par des réponses créatives et techniques, fonctionnelles et esthétiques. Il/elle définit après consultation du/de la client/e, une problématique (forme, ambiance) en réponse à l'aménagement d'un lieu de vie (espace, objet, mobilier) intégrant les aspects techniques réglementaires, fonctionnels, esthétiques permettant de fixer des repères pour le travail de conception. Il/elle agit en la matière en tant d'expert/e. Il/elle assume la création de projets, en cohérence avec les demandes de son/sa client/e, avec une dimension plasticienne et créative affirmée. Cette conception restant assujettie à une analyse développée des différents contextes : sociaux, culturels, environnementaux...

Résumé du référentiel d'emploi ou éléments de compétence acquis

Au carrefour du rationnel et du sensible, l'architecte d'intérieur pense les espaces, leur confère l'intention et le sens d'où naîtront identité, cohérence et lisibilité.
Intervenant le plus souvent à l'intérieur du bâti, il/elle sait tirer parti de cette contrainte par des réponses créatives et techniques, fonctionnelles et esthétiques. Il/elle définit après consultation du/de la client/e, une problématique (forme, ambiance) en réponse à l'aménagement d'un lieu de vie (espace, objet, mobilier) intégrant les aspects techniques réglementaires, fonctionnels, esthétiques permettant de fixer des repères pour le travail de conception. Il/elle agit en la matière en tant d'expert/e.
Il/elle assume la création de projets, en cohérence avec les demandes de son/sa client/e, avec une dimension plasticienne et créative affirmée. Cette conception restant assujettie à une analyse développée des différents contextes : sociaux, culturels, environnementaux...
Il/elle assure :
- la mise en forme des concepts élaborés plans, coupes, élévations, représentations perspectives dessinées ou volumiques) en interface avec la production, lui permettant d'affiner et de fixer les choix définitifs du projet.
- leur transmission et leur argumentation auprès de la clientèle concernée.
- les démarches administratives ou procédures légales qu'entraînent les spécificités des projets.
- l'évaluation des coûts liés à leur réalisation.
- la coordination sur le chantier en tant que référent/e des équipes de concepteurs/trices et d'entrepreneurs/euses.
Dans ses activités de réalisations : l'architecte d'intérieur fournit les documents plastiques (choix des matériaux, des couleurs, etc.) ou techniques (construction) nécessaires à l'élaboration des concepts par les réalisateurs/trices, artisans/es ou entreprises.
Il/elle prépare et organise dans le temps les processus de fabrication ainsi que les phases d'évolution des différents chantiers. Il/elle propose un diagnostic et conseille avec une vision prospective et stratégique une politique de développement de marques, de produits et de services. Des premières esquisses jusqu'à la réception des travaux,
