

# Knowledge hub in HCD

## Open Space Platform

Users from within the ETF and outside will be encouraged to create and share a broad range of content that will identify, share, monitor and deliver policies which increase employability, upskilling and reskilling within the partner countries.

Single-theme actions

Policy working groups,  
Partnership,  
Co-working

## Thematic Teams

Communities of practice grouping experts in thematic areas with the aim of maintaining and developing individuals' and corporate expertise to better respond to the ETF's thematic mandate.

## Skills Lab

A sustained and agile platform to develop and channel skills intelligence and advice to countries

## EXCELLENCE AND INNOVATION

VET providers achieving, sharing excellence and embedding it across more providers

## NEW LEARNING

Capturing the changes in learning and reinforcing countries' capacity to innovate in curricula, teaching and qualifications

Complementarity and synergy  
Multiannuality  
Multidisciplinarity  
Networking
