

CAREER COUNSELING PROJECT

To boost students' chances of understanding their career desires and passions as they join the job market

PROJECT SUMMARY

To demonstrate the utility of a career-counseling function on Jordanian university campuses, one that sees its mission as supporting students throughout their academic career and facilitating the entry of their graduates into the workforces (or to realize their full professional potential).

 **HASHEMITE UNIVERSITY**

PROJECT OBJECTIVES

1. Increases student access to career development and labour market credibility.
2. Boosts the practical engagement of professors with industries offering jobs, and their ability to benchmark the career guidance services available to students.
3. Upgrade teaching tools and participatory practices delivered by professors and their ability to participate in building career prospects for youth.
4. Institutionalize careers services for sustainable career guidance.
