

AGENDA

ETF SURVEY ON THE CONTRIBUTION OF CIVIL SOCIETY ORGANISATIONS TO HUMAN CAPITAL DEVELOPMENT IN THE CONTEXT OF LIFELONG LEARNING

BLENDED MODALITY MEETING

8TH APRIL 2021, 9.00 CET FAIRMONT HOTEL (6 BEIRUT STREET - FIFTH CIRCLE/ABDOUN, AMMAN) AND ZOOM

SUMMARY

The Covid-19 crisis has brought into focus that the Civil Society Organisations (CSOs) play a vital role by continuing their support to people's non-formal and informal learning. The lockdown or restriction of movement of people is significantly changing the context in which CSOs operate. Although often the situation is perceived as blocking many ongoing projects and activities, it can also stimulate new developments, creativity and provide new opportunities for CSOs.

This is one of the results of the 2020 survey of the European Training Foundation on the contribution of CSOs to Human Capital Development in times of the Covid-19 crisis.

The survey covered Albania, Jordan, Serbia, Tajikistan, Ukraine, Uzbekistan and had the following purpose:

- Appraise the dynamics of the CSOs' operational capacity to assess their resilience, in particular, proactivity vs reactivity in a time of emergency, capacity to

- mobilise resources (human, financial), ability to address newly formed demands, innovation, and anticipation capacity,
- Analyse the complementarity of CSOs' action and local and national governments' education and employment measures in response to the pandemic,
- Assess whether the Covid-19 crisis is changing the CSOs' roles and scope of work, following their intensified engagement during the crisis,
- Gather feedback from learners on CSOs' effectiveness,
- Establish contacts with a network of CSOs that operate in lifelong learning, non-formal and informal VET, skills learning, and employment services in six countries.

The **European Training Foundation** organises a meeting on **8 April 2021, 9.00am CET**, to present the survey findings in **Jordan** and the preliminary cross-country analysis. The meeting will provide an opportunity to discuss the survey results and jointly reflect on the CSOs' contribution to lifelong learning with representatives of CSOs, policymakers, donor organisations and other stakeholders.

The meeting will be organised in a **blended modality**; participants in Jordan will be invited to join in person (in full respect of the national social distancing measures related to Covid-19) or through Zoom, while participants from outside Jordan will join online. Interpretation EN/AR will be provided.
