### **Prof Idris Bugaje**

Born in March 1958 at Bugaje, Katsina State, Prof Idris Bugaje holds a Bachelor's and M.Sc. degrees in Chemical Engineering from the Ahmadu Bello University obtained in 1980 and 1988 respectively as well as a Ph.D. in Energy Engineering from the University of Newcastle-Upon- Tyne, UK in 1993.

After serving the NYSC with NNPC Refinery, Warri, Bugaje started his career with the Nigerian Paper Mills, Jebba from 1981-1983, Energy Research Centre, Usmanu Danfodio University, Sokoto from 1983-1988 and Kaduna Polytechnic as Lecturer I and rose to the rank of Senior Lecturer and Head, Department of Chemical Engineering between 1988-1995. He joined the services of Ahmadu Bello University in 1995 and two years later left for the University of Malaya, Kuala Lumpur, Malaysia (1997-1999). He returned to ABU Zaria in 1999 as Reader (Associate Professor) from where he was appointed Rector of the Federal Polytechnic, Nasarawa in 2000.

At the end of his tenure in 2004, he proceeded to the University of Johannesburg, South Africa on a one-year Sabbatical in the Department of Chemical Engineering after which he returned to his employers; ABU Zaria and served from 2005-2008. While at ABU, Zaria, he was the Founding Chair, Renewable Energy Research Group (2006-2008), Head of Department of Chemical Engineering (2007-2008) and Dean, Faculty of Engineering (2007-2008).

Prof Bugaje was appointed Professor of Chemical Engineering in 2006 by the University of Maiduguri but joined only in 2008 to become Dean Faculty of Engineering in 2009. In 2011 he was appointed Director-General of the National Research Institute for Chemical Technology (NARICT), Zaria.

Upon the successful completion of his tenure at NARICT in 2016, he went for a one year Sabbatical leave with- the Umaru Musa Yar'adua University, Katsina and towards the tail end of the sabbatical, he was appointed Rector of the famous Kaduna Polytechnic in October 2017. In April 2021 he was appointed Executive Secretary of the NBTE.

A scholar of international standing, Prof Bugaje has over 68 publications (Journals and Books) and 64 as conference and seminar papers, with Google scholar citations as at January 2021 totaling 1086. Prof Bugaje's major research area is Renewable Energy especially the area of Biofuels.

With five patents to his name, Prof Bugaje, a COREN Registered Engineer is a Fellow of the Nigerian Society of Chemical Engineers (FNSChE), Fellow Solar Energy Society of Nigeria (FSESN) and Fellow, Materials Society of Nigeria (FMSN). He has received several awards in his 40-year service to humanity. He is married with several children.

**Serumu Igberadja**

**Vice President**  
IVETA,  
East and West Africa Region

**CEO,**  
Think TVET Global Consult,  
Nigeria

**Serumu Igberadja** is the Regional Vice President of the International Vocational Education and Training Association (IVETA) Eastern and Western Africa and the CEO of Think TVET Global Consult. He is a youth leader and a community development advocate from Sapele, Nigeria.

He has special interest in good governance, non-violence, community development, quality education, vocational skills development, sustainable livelihood, and economic development.

He can be reached at [zerumuhjack@yahoo.co.uk](mailto:zerumuhjack@yahoo.co.uk)

**AROGÉ Ayodele**

**Head/General Manager**

NBTE Centre of Excellence,

Kaduna, Nigeria

**AROGÉ, Ayodele** was born to the Aroge family of Orin-Ekiti in Ido/Osi Local Government Area of Ekiti State, Nigeria. After his primary and secondary education, the young Ayo proceeded to the Ondo State College of Education (now Ekiti State University of Education, Ikere-Ekiti) and bagged the Nigerian Certificate of Education (NCE) in 1990. Still thirsty for further knowledge and more education, Ayo Aroge capped his quest for academic laurel with a B.Sc. (Mathematics and Education) in 1997 from the University of Ilorin. Upon graduation from the University of Ilorin in 1997, he did his mandatory National Youth Service at the Federal Office Statistics (now Bureau of Statistics), Abuja, FCT.

After the Youth Service in 1998, Ayodele was employed as a Data Entry Officer under FGN/UNDP – Assisted Aid Management Programme in Nigeria. At UNDP, he was responsible for collating and processing of Data into the input and output tables for effective evaluation and monitoring of the National Management for Socio-Economic Development Programme (NMS-ED) – a sub component of the First Country Cooperation Framework (CCF-1).

At the expiration of the contract work with the FGN/UNDP in 2001, Mr. Ayo Aroge joined the services of the National Board for Technical Education, Kaduna (NBTE) as a Planning Officer. He was redeployed to the NBTE Centre of Excellence in June, 2013 as the Research and Development Officer of the Centre. He is presently the Head/General Manager of the Centre.

**Dr Julian Ng**

**CEO,**

Warnborough Worldwide Education Group

### **Dr Julian Ng**

Julian Ng is CEO of the Warnborough Worldwide Education Group and a trustee of the Warnborough Foundation. He has nearly 30 years of experience in the educational sphere specialising in various disciplines including teaching and learning methodologies, quality assurance, and distance learning. He has taught students and trained clients in over 30 countries in academic, corporate and governmental settings. He is currently President-Elect for the International Vocational Education and Training Association (IVETA). In his spare time, he is an author, composer and playwright. More info: [www.julianng.com](http://www.julianng.com)

**Dr. Steve McKee**

**President Emeritus,**  
World Didac Association

**President /Founder**  
Labtech International  
Asia

**Dr. McKee** is the **President Emeritus of World Didac Association**(the largest international education industry association). He has been a member of the governing executive council of World Didac since 2012 and feels it is an honor, privilege and a duty to support World Didac so that it can grow and to have a larger impact on the world of education and to stimulate new innovation and adoption of forward looking practices to match with our changing world.

Dr. McKee is the **President and founder of Labtech International**, Founded in 1985, Labtech is perhaps the oldest and certainly one of the largest technical education designers and manufacturers that is based in Asia. It is renowned for its educational innovation and has thousands of schools as clients in over 80 countries. Labtech's latest work is in pioneering the intersection of digital learning and 21<sup>st</sup> century skills with Vocational Technical Education. This area has a great potential to improve the dynamics of teaching and learning for skills as well as reducing the cost of TVET education around the world by virtualizing part of the learning process. He is recognized as being one of the leading global practitioners and innovators for TVET and digital learning.

Dr. McKee has worked in international educational development for forty years and has published many articles on educational development, 21st century Learning, teaching and innovation in various academic and educational publications. He is also an advisor to several governments on implementation of new TVET programs to use technology for teaching and learning. In 2019 he spoke and participated in approximately 20 educational conferences and events worldwide. In 2020 he has participated in many online and virtual conferences talking about online and digital learning and providing real examples of how this can be done in the TVET sector.

**Dr McKee's current areas of interest are:**

1. How Technology is transforming TVET for teaching and learning.
2. Technology and globalization and its effect on industry and the job market and the developing world.
3. Cross cultural learning and perception differences (how people learn differently across the globe)
4. Increasing productivity in education. (through better teaching and use of technology)
5. Impact of technology on learning (How will this change education, its structure and delivery)
6. Industry 4.0, AI and Robots and its impact on society, work, learning and health.

**Dr. Nader Imani,**

Executive Vice President  
Global Education, Festo  
Didactic SE

**Dr. Nader Imani,**

Executive Vice President Global Education, Festo Didactic SE

After 3 years of academic research and teaching, Dr. Nader Imani joined Festo, a global leader in automation and technical education in 1992. Since then he has been assuming different roles and management responsibilities with Festo Didactic in Germany, as well as acting as CEO of Festo Didactic in the United States and Canada, since 2017 appointed as Executive Vice President Global Education, he has been responsible for larger educational projects with impact on socio-economic progress around the globe.

He holds a Ph.D. in Mechanical Engineering of Ecole Centrale de Nantes in France as well as qualification degrees from Harvard Business School in United States and Saint Gallen School of Management in Switzerland.

In 2014 he has been elected as a member of the council and since 2020 as the President of Worlddidac Association for promotion of Education Industry. Within the frame of his professional activities, Dr. Imani serves WorldSkills International since 2017 as a member of its Advisory Board on Skills Development in Africa. Dr. Imani has been acting as an active partner of the United Nations as well as bi- and multi-lateral development agencies to drive innovation in the field of technical vocational education and training and industrial workforce development.

**Mr. Karl Skaar,**

Sociologist, Senior Analyst, Editor,  
and Business Developer.
