

# AGENDA

## Extended reality (XR) for VET and Lifelong Learning: ideas and practical applications

**15 JULY 2022, 14:00 – 15:30 CEST**

**ONLINE**

Organized by ETF in collaboration with ITC-ILO

---

### SUMMARY:

Virtual and Augmented Reality solutions are getting more and more common in education and training settings, and are showing important impacts in terms of learning outcomes, inclusion and cost saving. Still, a number of challenges remain open, especially in transition economies. The webinar will report on the results of the XR Skills Experts Meeting, recently organised by ETF and ITC-ILO in Turin, and will display a few real-life cases of Extended Reality application in education and training settings.

Time	Agenda Item	Owner
