

DIGI ENE Initiative: “Developing and Sharing Excellence on digitalisation of teaching and learning”

Webinar report: Thematic webinar on “Teachers’ Digital Competencies”

DIGI ENE is one of the initiatives launched in the context of the **ETF Network of Excellence** focusing on digital teaching and learning practices. The overall objective of the initiative is to show how digital teaching and learning can efficiently increase students’ learning, presenting tools and methodologies, and supporting participating Centres of Excellence in integrating them in their work environment.

The webinar dedicated to the topic of “Teachers’ Digital Competencies” was organized on **11th October 2022 (12:00-15:30 CEST)**. The event raised a big interest gathering more than 100 participants from different ETF partner countries. The webinar was held in English, Russian and French.

The teaching professions face rapidly changing demands, which require a new, broader and more sophisticated set of competences than before. The ubiquity of digital devices and applications, in particular, requires educators to develop their digital competence. A multi-stakeholder voices were represented during the webinar: EU policy makers, researchers, national agencies responsible for the professional development of teachers’ competencies & teachers itself.

Agenda of the events included the following presentations:

- *Opening and explanation of the objectives - José Manuel Galvin Arribas - Filippo Del Ninno, ETF*
- *Presentation of the DigCompEdu framework & Introduction to the SELFIE Model for teachers - Anastasia Economou, Georgios Kapsalis, JRC*
- *Critical digital literacies for teachers and educators - Darren Mundy, University of Hull, UK*
- *Digital competence advancement in Estonia - Kerli Požogina, HARNO Agency of the Ministry of Education and Research, Estonia*
- *Fostering the adoption of whole-school level digital innovation in schools - Kairit Tammets, University of Tallinn, Estonia*
- *Case history from Georgia - collaboration between two schools in developing digital practices - Tatia Nakashidze-Makharadze, BSU, Georgia*

- *A brief summary about the current situation regarding the ongoing development projects, Filippo Del Ninno, ETF*

You can find all the presentations under the following link on ETF Open Space:

Please find below the recording of the webinar: [GMT20221011-095809_Recording_1920x1200.mp4](#))

Objectives:

By organizing the webinar about “Teachers’ Digital Competencies” we wanted to:

- support teachers to develop their digital competence &
- open a platform for discussion and transnational learning among members of the network &
- present self-reflection tool of teachers’ digital competence & schools’ readiness in relation to digital technology &
- present teachers’ collaboration & peer-learning methods accelerating digital innovation in schools.

The last part of the webinar was dedicated to the second component of DIGI ENE Initiative: DEVELOPMENT PROJECTS. Development projects are thought to be bottom-up initiatives aimed at materializing the real change by piloting new tool/approach/methodology by selected CoVEs.
