

# AGENDA

## TITLE:

## The international dimension of Centres of vocational excellence: Building Vocational Excellence through international cooperation

### 2<sup>nd</sup> On-line Consultation meeting

23 November 2022, 14:00 – 15:30

---

## SUMMARY:

The ETF, in close cooperation with DG EMPL, is implementing the project The International Dimension of Centres of Vocational Excellence: Building Vocational Excellence through International Cooperation. The project is concerned to develop a self-evaluation tool that will help vocational schools to evaluate the scope of their activities, the quality of their performance and their capability as organisations or networks. The tool aims to support a shared international understanding of what it means to be a CoVE and to enable CoVEs to share good practice, learn about what other CoVEs are doing and work together to improve and extend their activities.

A Consultation Panel has been established to accompany the work of the project over the next two years and to validate its outputs. The Panel includes representatives from international and national VET Associations, national Ministries, Erasmus plus CoVE projects, donor organisations, EQAVET and the ENE Network.

Over the course of this year, the team has drafted a set of criteria and indicators that will form the framework for self-evaluation by CoVEs. This consultation will give teachers, trainers and managers working in vocational schools and training centres and their stakeholders the opportunity to evaluate the draft criteria and indicators. The webinar will provide an opportunity for participants to comment and propose improvements. In addition, participants will be invited to participate in a survey where they can provide additional comments on the draft criteria and indicators.

The Framework includes 23 criteria that address Teaching and Learning, Partnership and Cooperation and Governance and Funding. A previous webinar focused on Teaching and Learning, while this webinar will focus on Partnership and Cooperation and Governance and Funding.

ETF has launched a survey so that vocational teachers, trainers, learners and stakeholders can comment on the criteria and indicators that make up the International Self-Assessment Tool for CoVEs. The survey has been designed so that it is possible to select which criteria or indicators you wish to

comment upon. Please add your comments before the **30th of November**: <https://bit.ly/3SFc2xd>. The survey gives you a chance to read the draft indicators and criteria.

In addition, you may like to view a [mock-up of the interactive platform](#) designed for the ISATCOV tool – this gives an impression of what the tool will look like.

The webinar will be in English.

For further information, see this [page](#).

Time	Agenda Item		Speaker/ Facilitator
14:00 - 14:15	Welcome – Concept and Purpose of a CoVE (15')	Polling	Julian Stanley, ETF
14:15 – 14: 25	Presentation of ISATCOV Framework (10')	Polling	Karin Luomi-Messerer, (Civitta & 3S)
