

Digital Skills: Navigating the Evolution and Embracing Innovation

Data Literacy Skill

Ilgar Zarbaliyev

Excel Workout Leader @eDNA

As we navigate the digital age, it has become increasingly apparent that digital skills encompass the abilities and knowledge required to effectively use and navigate digital technologies.

SRI International®

21st Century Learning Design for Educators

- 1 Knowledge Construction
- 2 Collaboration
- 3 Real-World Problem Solving & Innovation
- 4 Skilled Communication
- 5 Self-Regulation
- 6 ICT for Learning

“

In our fast-paced world, where information flows relentlessly, it is no longer enough for the younger generation to merely memorize and regurgitate facts.

”

Generated Information in 1 minute in 2021

1

Instagram: 695 000 stories

2

Snapchat: 3.4 million snaps

3

YouTube: 500 hours content

4

Twitter: 350 000 tweets

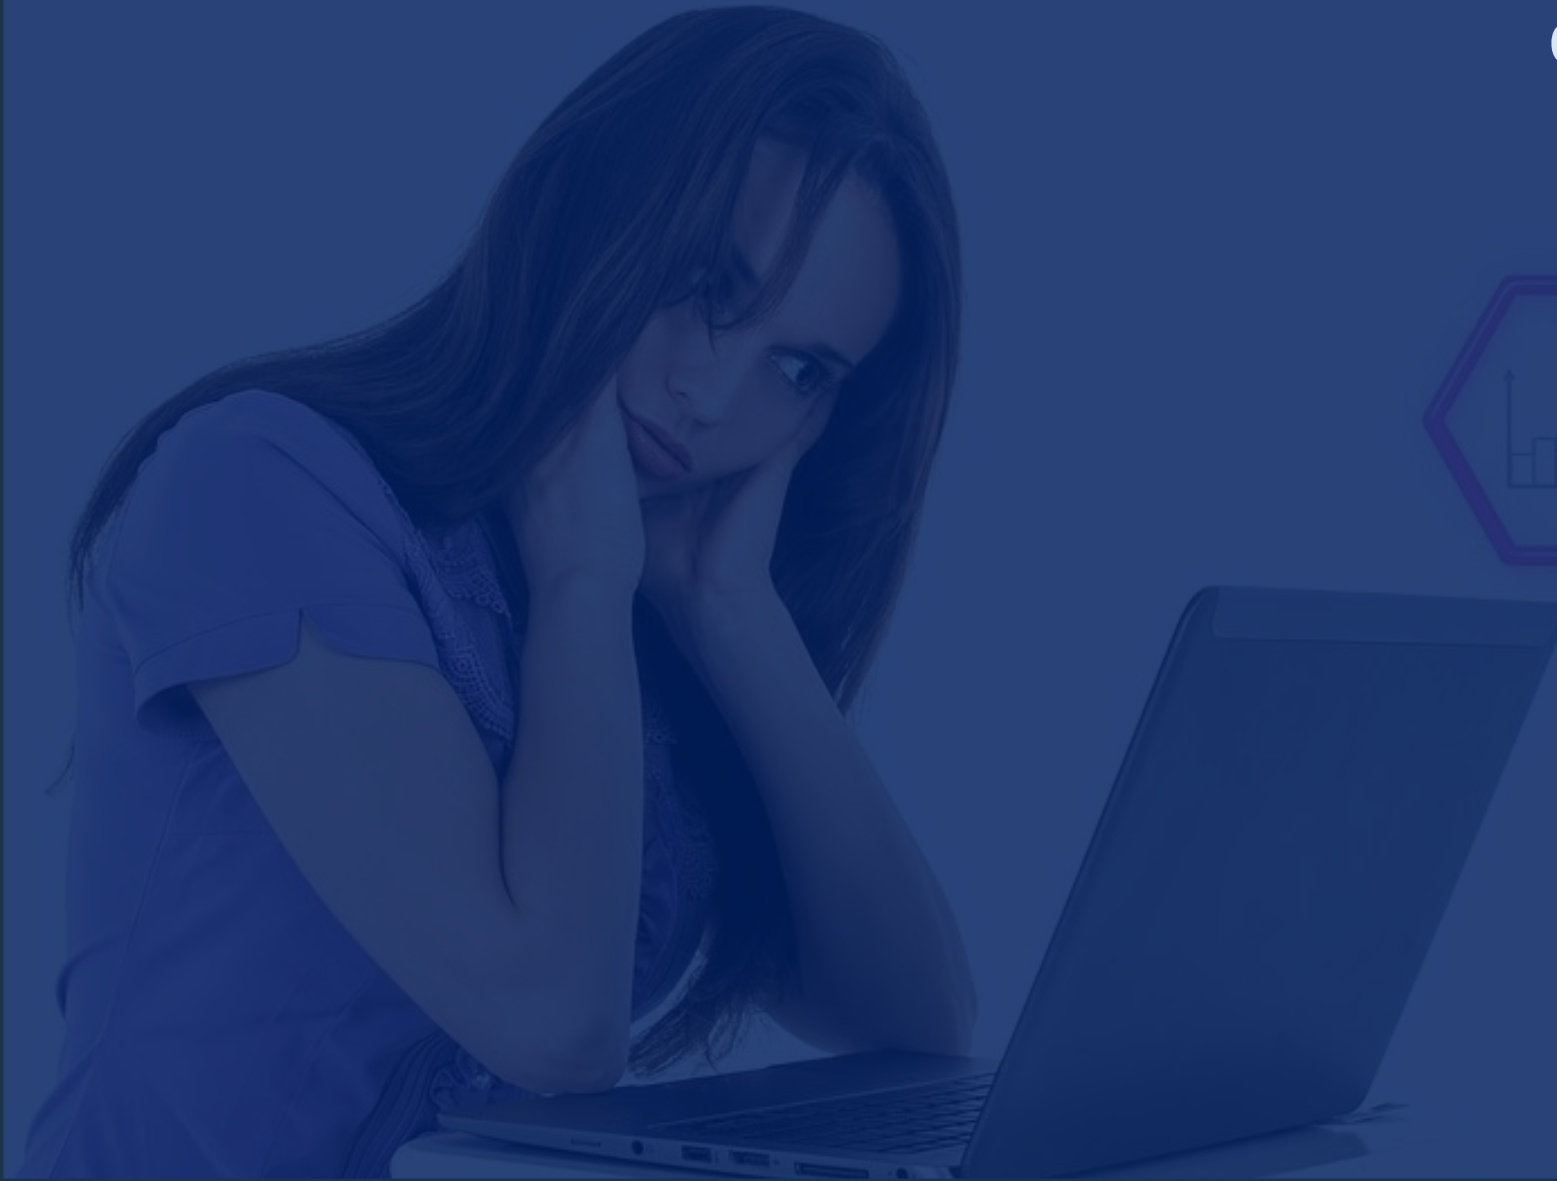

5

E-Mail: 200 million messages

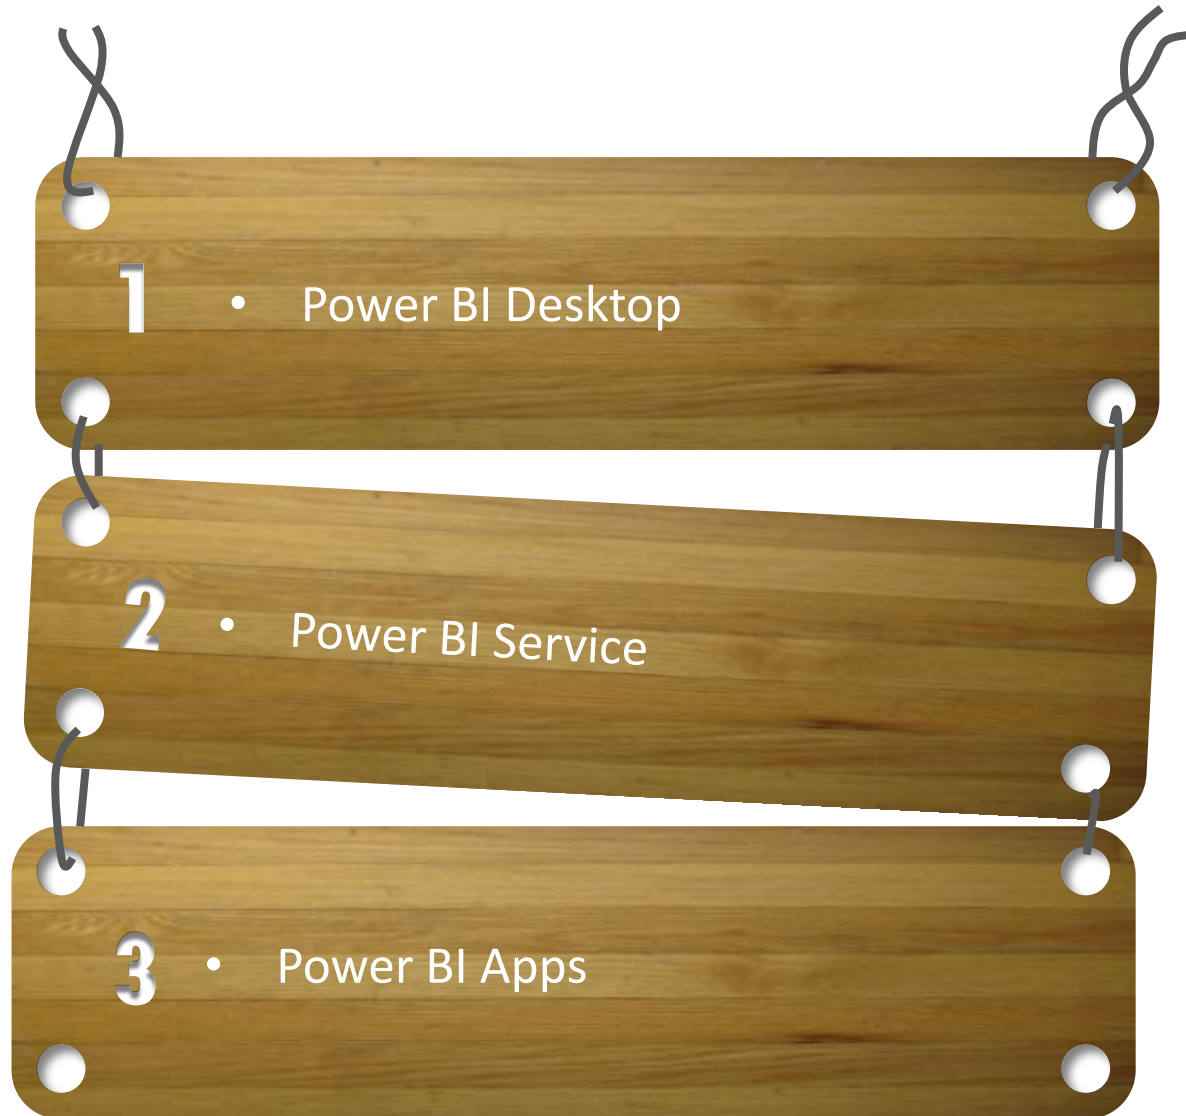

“

Students learn to navigate data, identify patterns, and draw well-informed conclusions.

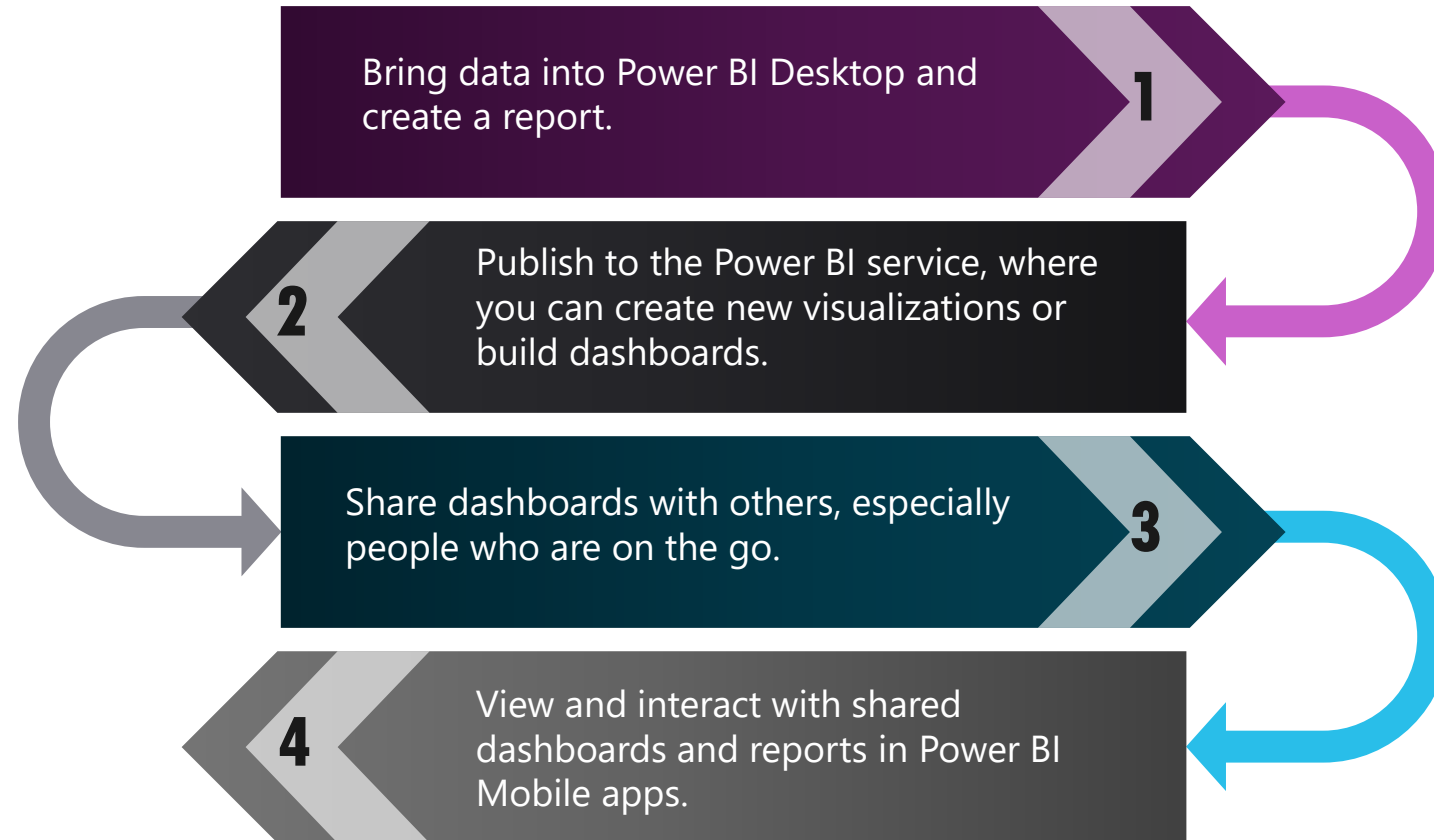

”
