OWNERSHIP: private

PRODUCTS/SERVICES:
Agrohub offers innovative solutions for the agricultural sector, focusing on the implementation of technology, research, and data-driven insights. The company helps agricultural businesses improve their efficiency and sustainability through consulting services, education programs, and the introduction of digital solutions. Agrohub also conducts large-scale industry research, develops benchmarks, and organizes networking events for agri-business leaders.

COMPETITIVE ADVANTAGES AND INNOVATION:
Agrohub stands out through its deep industry expertise, innovative data-driven approach, and strong partnerships within the agricultural community. The company integrates cutting-edge technologies, such as digital tools and analytics, to help agribusinesses make informed decisions. Its unique ability to combine consulting, education, and networking services creates a holistic approach to improving agricultural productivity and sustainability. Additionally, Agrohub plays a key role in fostering innovation by connecting stakeholders and offering platforms for knowledge exchange.

STAGE OF DEVELOPMENT:
Agrohub is a mature and well-established organization with a strong presence in the agricultural sector in Ukraine. The company continues to grow internationally, expanding its influence and services, while consistently driving innovation and fostering industry collaboration through its diverse offerings and strategic partnerships.

BUSINESS OFFER/BUSINESS REQUEST FOR THE NETWORKING EVENT:
Agrohub is open to partnerships with agricultural technology companies, consultants, and organizations interested in sustainability and efficiency improvements in the agricultural sector. In addition to its core services, one of Agrohub's key research areas is HR development, particularly trends in the evolution of specialists and the skills required for modern professionals in the industry. As part of its business request for the networking event, Agrohub is looking to exchange experiences with European partners, specifically in the area of HR development, to better understand and implement best practices for workforce growth and skill enhancement in the agricultural sector.

TYPE OF PARTNER SEARCHED AND COUNTRIES:
Agrohub is open to partnerships with organizations in the fields of agricultural technology, sustainability, and research. The company is particularly interested in collaborating with partners from Europe, North America, South America, Australia, and the USA. Agrohub is looking for partners who can provide technological solutions, consulting expertise, or insights into digital agriculture, sustainability practices, and HR development. These collaborations aim to drive innovation and efficiency in the global agricultural industry, with a special focus on exchanging knowledge and best practices across these regions.
