Facebook https://www.facebook.com/agrovincluster

OWNERSHIP: Public union

PRODUCTS/SERVICES:
Public association, conducting educational seminars, conferences. Organization of exhibitions, B2B meetings, business visits. Consulting services, attraction of investments, etc.

COMPETITIVE ADVANTAGES AND INNOVATION:
Symbiosis of commercial production and processing enterprises with research and educational institutions. The first structured agricultural cluster in Ukraine. A number of memoranda have been concluded with European clusters, and a representative office of the cluster has been opened in African countries. 7 rupiah was created to support SMEs, including digital transformation of enterprises.

STAGE OF DEVELOPMENT:
The cluster is in the stage of development and growth, we were founded in January 2022.

BUSINESS OFFER/BUSINESS REQUEST FOR THE NETWORKING EVENT:
Agrocluster unites producers and processing enterprises of the agricultural sector of Ukraine. Our main goal is to bring our participants to the domestic and foreign markets. Searching for new opportunities and new directions for product sales. Our products are grain, oils, food products, equipment and machinery for the agricultural sector, seeds, organic fertilizers and crop protection products. Our services include organizing training seminars, conferences, exhibitions, business visits, B2B networking. Agroconsulting, supporting investors in Ukraine, communicating with the authorities, etc.

TYPE OF PARTNER SEARCHED AND COUNTRIES:
Agronavti is seeking Tech Companies: Specializing in agricultural IoT devices and AI-based solutions. Research Institutions and Universities: For AgriTech R&D collaboration. Distributors and Regional Partners: To help expand Agronavti's services to other countries. Shop Market Partners: For the development and expansion of our shop market.
Countries of Interest: Primarily interested in partnerships within the EU, USA, and neighboring countries such as Turkey, Ukraine, Armenia, and other post-Soviet countries, while remaining open to global collaborations.
