

Assoc. Prof. Şahin İdil

Assoc. Prof. Şahin İdil received his PhD degree in science education from Hacettepe University. He is currently working at the Scientific and Technological Research Council of Türkiye (TÜBİTAK). His research interests focus on public engagement with STEAM Education, digitalisation in education and the use of AI in education. He is also editor-in-chief of the Journal of STEAM Education. He pays very much attention to AI based studies within this journal. He gives lectures on some subjects such as Science Education, Project Design in Education at several universities. He has involved in several international projects under some programmes such as Erasmus Plus, FP7 and tries to reveal the importance of the use of AI in education through these projects.
